

BURNS THE ATHLETE.

Has Traveled Far and Met With Strange Scenes.

Wilfred Burns of the circus is by birth a Canadian but from his third to his ninth year lived in the United States. He afterward received an education at Ottawa, Ontario. At the age of fourteen he joined a circus company and has been a performer ever since. He traveled for four years through the East Indies, Africa and Japan. During his Japanese tour a trip was made to the interior, from the port of Kobe. Taki, the little Jap of the present company, was with Mr. Burns then and the troupe wandered up into the mountainous region on a new venture. They met with misfortune from the start until they reached a place where the snow and cold and lack of means to return to the coast caused intense suffering. Taki had to be carried on a blanket stretcher. No food but rice could be procured for days. The weather was intensely cold and the inhabitants of the inland villages, who had never seen foreign showmen before, were utterly disregarding of their piteous condition and refused them assistance of any kind. At last they reached Kobe again and returned to Java, bringing with them a number of Japanese and forming a new company called the "Takanogara troupe," made a grand success.

While in Java, Mr. Burns heard of a recent discovery of vast ruins in the central portion of the country, near a town named Ngadag, thirty-two miles from Ejoja, the capital, and went to see them. It appears that a surveyor had unearthed them, and when Burns and his party arrived they found two immense pyramid-shaped structures ornamented with gigantic statues, all hewn out of lava rock. The stones were so well cemented together as to make it difficult to detect the places where they were joined. The whole was covered with hieroglyphics in bas relief, in addition to the statues placed on pedestals at the different steps. The pyramids were over a hundred feet in height. Mr. Burns is an aeronaut of note, and previous to going to Japan fell from a parachute at Port Darwin, South Australia, when at a height of eighty feet, sustaining injuries which confined him to hospital for six weeks. As a weight lifter Burns holds the world championship for a man of his weight (140 pounds), lifting 153 pounds, with one arm, above his head.

They have been assigned as follows: Pacific sugar mill, 50; Honolulu, 91; Waikaeae, 50; Ewa, 50; Kohala, 40; Onomea, 40; Koloa, 25; Pioneer mill, 18; Kula, 27; Hanalei sheep station, 3; Hutchinson, 30; Paauhau, 50; Olovala, 20; Oolala, 50; Hilo, 25; Hakalan, 25; Kilauea, 40; Halaue, 40. Total, 649. In addition to the above there are 10 women.

Valuable Manuscripts Burned.

Unwin Brothers' printing works, located at Chilworth, Surrey, England, were burned recently. One hundred valuable manuscripts and works in course of preparation, or ready for publication, were destroyed. The publishing house of Unwin Brothers is also known as the Gresham Press.

Leadville's Ice Palace.

Over one hundred workmen are engaged in the construction of the Leadville ice palace, which will be opened to the public on Christmas day. Fifteen million tons of ice, or enough to build a wall one foot thick and six feet high about the entire city, will be used.

"I was in terrible misery with rheumatism in my hips and lower limbs. I read so much about Hood's Sarsaparilla that I thought I would try it and see if it would relieve me. When I commenced I could not sit up nor even turn over in bed without help. One bottle of Hood's Relieved Me

so much that I was soon out of bed and could walk. I had also felt weak and tired all the time; could not sleep, and obtained so little rest at night that I felt all worn out in the morning. I had no appetite to eat anything, but Hood's
